**GUIDELINE FOR COMPLETION OF FSIS FORM 9305-4, CERTIFICATE FOR EXPORT OF BEEF
AND BEEF PRODUCTS TO THE REPUBLIC OF KOREA (ROK)**

Certificate Number

Block 1. Enter the certificate number from FSIS Form 9060-5. Replacement of FSIS Form 9305-4 is required if an "In Lieu of" certificate has been issued so that the number in this block matches the certificate number of the export certificate accompanying the consignment.

Plant Data

Block 2. Slaughter plant official name, address and Est. number must be entered for all fresh/frozen raw unprocessed beef products (carcasses, primals, subprimals, meat cuts and offal) except ground products. This block may be left blank only for further processed beef products (e.g., cured, cooked) and ground products.

Block 3. Cutting plant official name, address and Est. number must be entered for all fresh/frozen raw unprocessed beef products. This block may be left blank only for further processed beef products and ground products (e.g., cured, cooked). If unprocessed beef products are cut at the slaughter plant, the information from block 2 should be repeated in this block.

Block 4. Processing plant official name, address, and Est. number must be entered for further processed products and ground products.

Block 5. Cold Storage official plant name, address and Est. number is entered if product is moved to a cold storage warehouse other than a slaughter, processing or cutting plant. If an separate cold storage facility is not used, this block can be left blank.

Note: Official name (or official Doing Business As (DBA) name), address, and Est. number entries must exactly match the plant listing in the most current FSIS Meat and Poultry Inspection Directory or product will be detained by Korea. When a difference is determined, contact the FSIS Technical Service Center at (402) 221-7400. FSIS TSC may need to officially verify the change to Korean officials

Block 6. Slaughter dates are entered for all fresh/frozen raw beef, carcasses, primals, subprimals, meat cuts and offal. The block may be left blank for further processed beef products and ground products.

Block 7. Processing, cutting or packing dates are entered for all beef products.

Note: The date ranges entered must cover all dates stamped on containers and processing/pack dates obviously cannot precede slaughter dates. Also, no date on product can precede the inauguration date of FSIS inspection at the plants involved. Errors regarding slaughter/pack dates may result in detained and possibly rejected shipments. FSIS personnel cannot provide assistance when this discrepancy is found.

FSIS Signature

Block 8. Printed first name, M.I., and surname of FSIS signing official

Block 9. Printed title or abbreviation (e.g., D.V.M.)

Block 10. Certifying official's signature

Block 11. Date of certifying official's signature

Note: The 9060-5 and 9305-4 must be signed by the same veterinarian.

Shipping Information

Blocks 12-18 Information provided and attested to by exporter/shipper.

Note: Block 16 is a commercial seal number, not a USDA seal. If errors are made in blocks 12-18, it will be necessary to obtain a replacement FSIS Form 9305-4 completed and signed by the FSIS certifying official - then the correction can be made to the exporter/ applicant blocks.
